The Future of FP&A: The Rise of eXtended Planning & Analysis (XP&A)

As organizations take steps to inspire a data-driven, performance-focused culture, Finance teams are redefining the mission for the Office of Finance. According to Accenture, CFOs are overwhelmingly using the opportunity to drive organization-wide operational transformation.

How are CFOs driving such transformation? By extending beyond the traditional walls of Finance and FP&A with a new approach called eXtended Planning & Analysis (xP&A).
