

OneStream Software Virtual Whiskey Tasting

[This article first appeared on the OneStream Regional Event Site](#)

Join us for a virtual whiskey tasting experience on Thursday, October 28th.

Ahead of the tasting, you will be sent a combination of five sample-size bottles of bourbon whiskey and rye whiskey. Our host, Zack Davis, from Sazerac will guide us as we slowly sip and expand our pallets throughout the tasting.

Guest Speaker: In between tastings, we will hear Robert Snyder, Director of Finance at BMC Software Inc., share why they selected OneStream's unified platform to replace multiple financial systems for Consolidations, Zero-Based Budgeting, Planning, Reporting & Analysis.

We look forward to sharing this virtual experience with you. Space is limited so please register no later than Thursday, October 14th. Spouses and loved ones are welcome to attend.

Cheers!
