Live Demo Webinar

Friday, January 28 | 11:00 AM ET

Join our Live Demo Webinar on January 28 at 11 A.M. ET / 17:00 CET

Join an upcoming live demonstration of OneStream to learn how your organization can modernize finance, simplify and align processes and extend your investment across the organization with OneStream MarketPlace solutions.

This demo session will be focused on Predictive 123 – deploying predictive models throughout OneStream.

In this webinar, you will learn how to:

- Easily create predictive models
- Create predictive models for long range planning, annual planning and rolling forecasts
- Define target forecast scenarios to use within various planning scenarios
- Visualize predictive models vs. history for trend analysis
