

Herbalife Customer Success Story

[This video first appeared on OneStream Software youtube channel](#)

Herbalife Nutrition was previously managing data in multiple CPM products, including Oracle Planning, HFM, and Essbase. Having these fragmented applications caused users to spend much of their time reconciling data due to the lack of confidence in the numbers they were reporting. Herbalife needed a platform that would hold all of the data in one place to streamline analysis and reporting. Watch the video to learn why OneStream Software was the perfect fit!
