

SAP ERP and OneStream — The Path to Modern Finance

[This white paper first appeared on OneStreamsoftware.com](#)

Modernizing finance systems requires focusing on both ERP and CPM systems. A recent survey by BPM Partners revealed that 63% of organizations prefer best of breed CPM solutions as opposed to those offered by their ERP vendor.

Many SAP customers have already evaluated their options, and more than 100 SAP ERP customers have chosen OneStream as the proven, better alternative to legacy CPM solutions from SAP, Oracle/Hyperion, IBM Cognos and others.

This white paper highlights:

- The differences between ERP and CPM systems
- The challenges with SAPs approach to CPM solutions
- The advantages customers are gaining by adopting OneStream for CPM
